

Furnace Tending Vehicle

FNBZ8512

Design for Heat Processing Solutions

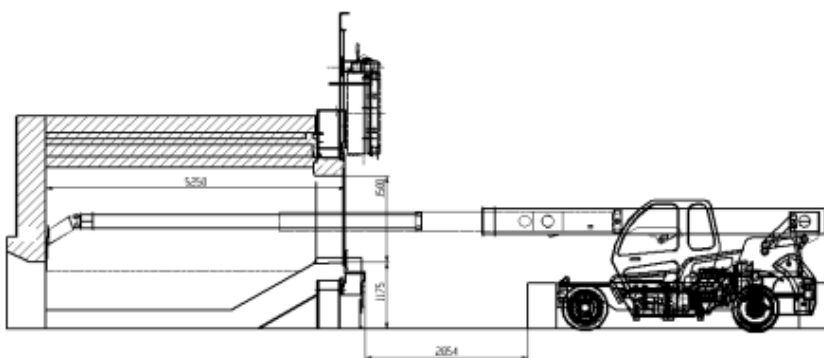

Applications: Slag removing in Furnaces for Billet Casting, Ingot Casting and Diecasting

SOCMA designs a range of Furnace Tendering Vehicle and Charging vehicle for various applications including:

- Billet Casting
- Ingot Casting
- High Pressure Diecasting
- Gravity Diecasting
- Low Pressure Diecasting
- Remelt and Recycling

Rake can reach all corners of furnace, which cover with melted Aluminum. It has high temperature resistance capability.
